Volume VIII No. 27

A NEW PUMPING PLANT

H. B. Williams has just finished and tested a pumping plant which appears to fill a long felt want for a plant that is both cheap and efficient.

He has a 5 5/8 double action cylinder with a 26 inch stroke, and in a test found that it threw 200 gallons of water per minute. He says it runs remarkably easy. He has a 5-horse power engine, but is sure that the power required to run this pump is not over 2 horse.

If Mr. Williams' plant continues as good as it starts out, it will be the best thing of its kind that has struck the Valley.

It needs no lengthy explanation to make it apparent that a cylinder pump that will do the business is much more easily and cheaply installed and handled afterward than a centrifugal pump.

WILLARD

The Albuquerque Auto crowd on their return trip from Roswell, Sunday, were entertained at the beautiful bungalow of W. A. Dunlavy by the Ladies Club, to a chicken dinner, after which they were piloted by Dr. Cheney out to L. E. Herndon's ranch to see the pumping of his well. They were very much surprised at the flow of water, having no idea that we had anything like it.

The Ladies Club met with Mrs. Hugh Swisher Friday afternoon.

Mr. and Mrs. Reeves, Jack Hurst and wife, Mrs. Kercheff, Mr. VanSproonsen and Mr. and Mrs. Frances Cormsley, of High Point, were in town Saturday.

Miss Hassie Clayton and H. L. Seymore were married Sunday at one o'clock at the residence of the bride's parents, one mile north of town. It was a quiet affair, only the family and a few friends being present.

The Willard ball club will play Mountainair next Sunday at Mountainair.

Messrs. Dunlavy and Ball left Tuesday for Carrizozo, where they are summoned as witnesses in some case.

Hugh Swisher returned Wednesday from Virginia where he made quite an extended visit with home folks and friends.

Mrs. Rudolph of High Point, was a Willard visitor several days the latter part of last week.

Mrs. Jack M. Kinley from near Panta, is a Willard visitor this week.

B. P. Hulen has been sick for

several days, but is reported much better at this writing.

Sheriff Meyer of Estancia was in town Monday.

John Collier, Mounted Policeman of Estancia, was in town Sunday on his way home from Albuquerque.

W. F. Scofield arrived Monday night from Houston, and is looking over the valley with a view to locating.

Messrs. Carr and Shackleford, of Albuquerque, were in town Friday of last week on business. Mr. Carr returned to Albuquerque on the evening train and Mr. Shackleford left on the 10:45 that night for Kansas.

It rained all day in Clovis, Wednesday.

On account of a wash-out in Kansas, the west bound Santa Fe train was 8 hours late Wednesday night.

Mr. Richardson and his two daughters, Misses Clea and Neva, of Broncho, were in town transacting business. Miss Neva has recently arrived from Iowa. Miss Oleta filed on a claim last August.

L. D. Ellett is in Las Lunas and Albuquerque this week, on business.

S. W. Hodgson and family, who have been in Vaughn the past several months where Mr. Hodgson has a position as Seal clerk of Santa Fe yards, returned to Willard this week. Mr. Hodgson brought with him a bunch of milk cows, which he thinks will be very profitable to the dry farmer, solving the problem of having a money crop all through the year.

Antonio P. Salazar, Tax Assessor, was in town Tuesday.

C. P. Christensen, agent for the International engines, was in town Monday making preparations to install the pumping plant on Dr. Cheney's ranch. The foundation work for the engine was started Wednesday.

R. E. Barrow, who sold out and left here last fall, is reported very low with consumption in Tucson, Arizona. Mr. Barrow was in the hotel business here for a number of years and was held in high esteem by all who knew him. His many friends will be sorrowfully surprised to hear that the white plague has him in its grip, for he was apparently a robust man when he left here.

George Pope was in Albuquerque a few days, returning yesterday. He reports business picking up a little in that village.

Notice

\$10.00 a day easily made by hustling agent. Write at once for full information. Arizona Sales Agency, Phoenix, Arizona.

FOR SALE.—A clean folding bed. Mrs. Travis.

BOOM AT SAN PEDRO MINES

That things are just about to begin to happen at the big properties of the Santa Fe Gold and Copper company at San Pedro is evidenced by the news from Stanley that three cars of material have arrived there and a caravan of heavy teams is at work hauling the material and supplies from Stanley to San Pedro. A force of carpenters has arrived to begin work and it is understood that at least twenty-five new houses will be erected for employees at the mines. As previously announced the Santa Fe Gold and Copper company has decided to begin at once operations on a large scale, and between 300 and 400 men will be put to work just as soon as things can be gotten in shape. Several more cars of material are expected to reach Stanley in a few days and in sixty days' time it is believed the hum of industry will be steady and loud at the famous old camp. The heavy traction engines alone which are to haul the output to the railway and haul in supplies will liven up the landscape considerably.

General activity through the district is expected to follow the resumption of work by this big company and it is generally regarded as one of the most important industrial moves for a decade in central New Mexico.—The Herald.

LOCAL ITEMS

Thursday

Mrs. Allan McGillivray and baby came down from Santa Fe this evening.

H. G. Souders, formerly a resident of Estancia but now of Santa Fe, came in on the evening train.

Earl Scott came in from Gallup yesterday.

J. W. Brashears and family are again residents of Estancia, having arrived from Oklahoma yesterday. They occupy one of their houses in the north part of town.

County Clerk Sanchez went out to the ranch yesterday to visit his father, returning today.

W. H. Simmons received today a little machine which he thinks will not only save his back, but expedite his work of putting out plants on his irrigated tract. It is called the "Masters Transplanter." It permits the operator to walk upright while transplanting and watering plants of any kind. Mr. Simmons has promised to let us know how he likes it, after trial.

GOING, GOING, GONE!

ARE YOU ALL DONE?

THREE TIMES AND----

Those having in charge the deep well proposition tell us that the business must be closed up Saturday or the thing will have to be dropped.

The time is up.

Those who have subscribed must come in Saturday prepared to make the documents.

Bring your wives.

This is the last wag of the hammer.

Report must be made Saturday evening, one way or the other.

Come on the run.

Get busy and the thing will be done.

WOMAN'S CLUB MEETING

Estancia Women's Club met at the beautiful home of Mrs. J. M. Terry with several members present, in the absence of the President Vice President Mrs. Van Stone had charge of the meeting. Dues were paid, and ways discussed to dispose of our quilt that is in progress. The tables were prepared and a game of whist started but only a part of a game was played until it was noticed that one member was playing for all at her table while they were talking about the irrigation proposition when we decided it would be more profitable to spend the time in discussing the future of the country and what we would all do when the valley was all blossoming as a rose and we all had plenty of money. At 4 o'clock the Hostess served some elegant ice cream and cake, and that it was enjoyed by all was proven by the number of dishes each member ate. The next meeting will be with Miss Grace Brown, at the home of Mrs. J. M. Terry.

Mr. and Mrs. Fred Tuttle, of Denver, Colorado, are the proud parents of a baby girl, born May 4th.
